VISION OF THE INSTITUTE

To be a Technical Institution with Global standard of Academic and Research for the need of Society and Industry.

MISSION OF THE INSTITUTE

To provide value based technical education to produce quality professionals and responsible citizens. To perform state of art research and develop products to contribute to the Society and Nation

VISION OF THE DEPARTMENT

To be a center of excellence in the field of Computer Science with Global standards of Academic and Research for the need of Society and Industry.

MISSION OF THE INSTITUTE

- To provide value-based Computer Science education and produce innovative, competent and high-quality Computer Engineers for the growing demand of Society and Industry.
- To facilitate the students for enhancing the technical skills to involve in research activities through lifelong learning.

If the smile on the faces of our students and their engagement is any indications, it will be a year of continuous improvement for each and every panther. The student's active participation towards the growth of our institution coupled with their active engagement in Computer Science and Engineering department activities shows that we are processing towards our college theme.
